

HIGH RISK WARRANT SERVICE

Serving warrants in a Law Enforcement capacity is one of the most hazardous duties that Officers can face. Critical Training Group teaches Officers the safest and most effective methods of serving both search and arrest warrants. We incorporate advanced movement and entry techniques, coupled with live fire and SIMUNITION scenarios to keep the training the most realistic and cutting edge.

Our Instructors have served thousands of warrants in the urban, suburban and rural setting, so students will receive an experienced perspective in a multitude of terrains and environments. Classroom time will be minimal and students will be running scenarios for the majority of the class.
