

# POLICE SNIPER SCHOOL

A 60 Hour course which goes beyond the basics. Students acquire skills in long range shooting, advanced weapons maintenance, ballistics, stalking, record keeping, shooting slopes and moving targets, and actual skills used in urban environments.

The class progresses from the basics of long range shooting, to positional shooting, shooting through media, moving targets, as well as the tactics which are employed by national and International teams.

Instructors are well versed in most weapon systems, as well as other associated equipment. This class is the time and place to experiment with equipment, tactics and techniques while learning the actual police sniper position. It is not just a basic shooting school. Every shot will count, and be recorded.
