

REALITY PISTOL 3 -

LOW TO NO LIGHT

The RP3 course will introduce the shooter to advanced low-light and no light pistol combative tactics. Having the ability to successful work and prevail in a low to no light environment affects everyone and this course will enhance the shooters ability to overcome and prevail in this situation. Students who successful complete the course will come away with a greater confidence in their ability to overcome and win deadly force engagements that they face in a low to no light scenario. The course will cover the following:

1. Marginal light considerations and black-out engagement drills
2. Firearms safety as it pertains to self-defense and low light situations
3. Handgun/flashlight techniques such as Harries, Chapman, Laser, FBI, etc.
4. Night sights vs. stock
5. Handgun lights
6. Weapons manipulation with a flashlight – reloads and malfunctions
7. Rapid multiple shots on single targets, rapid engagement of multiple targets
8. Engagement of targets from the holster and combat ready position
9. The proper tactical response to single or multiple opponent situations
10. Using cover and concealment with a flashlight
11. Qualification.
